

## Logistics Management Services

### Reliable Solutions

At BirdDog Logistics, our Logistics Management team of industry experts helps you manage the transportation of goods more efficiently. From timely pickup and delivery, to managing both predictable and ad hoc loads, we will ensure that all of your needs are met. In addition, you will have instant access to available capacity which will help you make important load decisions more quickly.

Benefits of Logistics Management Include:

#### Freight Execution

**Predictable load management:** We give you added flexibility to proactively manage your recurring freight needs.

**Unpredictable load management:** We provide you with the ability to efficiently manage ad hoc loads such as shipments during peak volume periods.

**Specialized freight:** We handle both traditional and specialized modes of freight.

##### Traditional

- Truckload
- LTL
- Ocean
- Air
- Rail

##### Specialized (including but not limited to)

- Flatbed
- Refrigerated
- Lift Gate
- And much more!

**On-time delivery:** We'll enable you to better balance time in transit with expected delivery times more effectively.

**National coverage:** Working with both regional and national carriers allows us to determine the most reliable solution for your shipments.

**Load flexibility:** We handle a variety of products in a single load.

**Single point of contact:** We provide each customer with a single point of contact to ensure that capacity requirements are communicated effectively.

#### Information Management
